- Section R: Outbuildings
 - Change 'several' to '2+'
 - Elevator – example of this in use?
- Section S: Fencing
 - Add: PVC
- **Section T: Driveway**
 - This is so picky, but it has driven me crazy for years that Hard Surface is not the first one since I would venture to guess that 90%+ of our residential listings have a concrete driveway (87% of statistics are made up on the spot).
 - Does rock mean gravel? If so, can it just say gravel? Is there another "rock" driveway I'm not thinking of?
 - Combine 'Dirt' and 'Rock' to a single choice.
- **Section U: Ponds**
 - Change: 'Several' to '3+'
 - None is such an odd choice for me here. Is that necessary to include?
 - What does "Site Available" mean? Does this mean there is a place to put a pond? Seems like such a strange thing to have here. Unclear.

Sections V & W categories could be confused. Should rules be considered to keep users from choosing the same choices in both categories?

- Section V: Utilities to Property
 - Change: 'propane/leased' to 'propane (leased)'
 - Change: 'propane/owned' to 'propane (owned)'
 - Seems like we could remove Fiber Optic
- Section W: Utilities Available
 - Change: 'propane/leased' to 'propane (leased)'
 - Change: 'propane/owned' to 'propane (owned)'
 - Seems like we could remove Fiber Optic
- Section Y: Phone Service
 - Do we need this category? Remove this section completely as it no longer really applies.
 - DeSoto correct to De Soto.
- Section ZC: Associated Documents
 - Add Offer Instructions

b. Consider Tech/Smart Home items

- i. Move Security Alarm from Interior (and should we have two categories instead - Wired Security System, Wireless Security System)
- ii. Smart Thermostat(s)
- iii. Smart Doorbell
- iv. Exterior Cameras
- v. Interior Cameras
- vi. Smart Home Controller
- vii. Smart LED lights
- viii. Audio System (or something to include things like in-celling and/or exterior speakers)
- ix. Other suggestions???

2. Add HERS Rating (Home Energy Rating System) as an MLS Field (Conditional Logic with New Construction). Suggested are 3 fields – HERS Rated Yes/No; HERS Year; HERS Rating (numeric field).
 - a. Consider Greening the MLS. <https://green.realtor/sites/files/2019-02/2014%20NAR%20Green%20MLS%20Implementation%20Guide.pdf>
This is a big topic and would be best if moved to a work group – or have staff do additional research.
3. Enable Advanced Search Functionality
 - a. Lookup Fields Contain: Equal and Not Equal To
 - b. Free Form Fields Contain: Not Equal To, Contains, Contains All, Starts With, Not Starting With, and Does Not Contain
4. Enable Photo Labels and Descriptions in Paragon

5. Review Collaboration Center Options

 - b. Display of Agent License Number
6. Enable CMA – Auto Adjustments for Numeric and Feature Fields
7. Consider IDX Fees (both setup and recurring)
 - a. Current Rate: One-time setup fee of \$25. No recurring fees.
 Consider: \$75 at IDX Request (as proposed) plus annual recurring data fee of \$50.
8. Consider Member Request to:
 - a. ~~Consider changing Central Middle School to Liberty Memorial~~ Done
 - b. Consider whether we should turn off schools and/or advise members how to complete given the current discussions regarding School Closures.
 - c. ~~Consider making 1st floor footage a required field.~~ Done
 - d. Basement – Yes/No field. Should this be removed?
9. Consider adding School District as a field in Paragon (we would need a full list of all districts, although we could add them as we go).
10. Consider update to the “Commission Based On” field in Paragon to reflect existing MLS Rules & Regulations by adding:

Commission Based On: [Percentage of the](#) Gross Sales Price
 [Percentage of the](#) Net Sales Price
 [Definite Dollar Amount](#)
11. Consider timeline/suggestions for Sales Contracts/Forms to be updated.
 - a. Suggested changes to be pulled together for discussion.

Old/Tabled Business

1. Update from IDX Subcommittee to Establish Definition for “reasonably prominent” in IDX Rules:
 - a. Section 18.2.12: All listings displayed pursuant to IDX shall identify the listing firm in a reasonably prominent location and in a readily visible color and typeface not smaller than the median used in the display of listing data. (Amended 05/17) M
 - b. Sub-Committee Members: Nicholas Lerner (McG), Cheri Drake (McG), Drew Deck (RN), Tanya Kulaga (HRE), Jill Ballew (SRE), Michelle Roberts-Freeman (SRE), Victoria Perdue (KW), and Lindsay Landis (McG).
2. Discuss Contingency on the Sale/Closing of Buyer’s Property form and Notice to Remove the Contingency for the Sale/Closing of Buyer’s Property.
3. Discuss submittals of a two-unit property on a single lot that is not well described as a duplex. Should a new category be added in multi-family, and should the Residential Class include an area for ancillary dwelling units?
4. Sellers choosing to Record Video and Audio at showings and/or open houses. Best practices shared by Danielle Davey, LBOR Legal Counsel.

Agent

Search

Along with the following enhancements, several backend improvements have been made to Search functionality in order to provide improved performance and stability.

New operators for Search Lookup Fields and Freeform Fields

New field operators are now available for display on Lookup fields which give the user the ability to filter specific criteria (i.e. Subdivisions, etc.) when executing a search. If the MLS elects to have this feature activated, depending on the Field types, the following will display.

- **Lookup Fields Contain:** Equals and Not Equal To
- **Free Form Fields Contain:** Not Equal To, Contains, Contains All, Starts With, Not Starting With, and Does Not Contain

The operators applied values will be retained when a search is saved.

These field operators when active will also be available in Hotsheet Search.

Date Ranges: Days Back and Months Back search ranges

New date range filters are now available for configuration for date fields. When configured, this functionality will be active on all system date fields.

- 24, 18, 12, 6, Months Back
- 90, 60, 30, 7 Days Back
- Last Month, Last Year, This Month, This Year, Year-to-Date, Next 7 Days, Next 30 Days

When active, these filters will also be available in Client Connect Searches (see Client Connect section).

Contact your SSM to configure this option.

The screenshot shows a search form with several date fields: Listing Date, Update Date, and Closing Date. Each field has a 'Begin' and 'End' date input with a calendar icon. To the right of these fields is a dropdown menu that is open, displaying a list of date range options: 24 Months Back, 18 Months Back, 12 Months Back, 6 Months Back, 90 Days Back, 60 Days Back, 30 Days Back, 7 Days Back, Last Month, Last Year, This Month, This Year, Year-to-Date, Next 7 Days, and Next 30 Days. Below the date fields are other search criteria like Bedrooms, Bath #, and Sq Ft, followed by a 'Search By Map' section and additional remarks.

Quick Search

The screenshot shows the 'Quick Search' interface. It includes a 'Listing Office 1' field, a 'General Date' dropdown set to '60 Days Back', and 'Begin' and 'End' date inputs. A tooltip shows the date range '11/22/2013 - 01/21/2014'. Below these fields is a search bar showing '3,712' results, with buttons for 'Count', 'Clear', and 'Search'.

Statistical Reporting

When active on the MLS, the date range operators will also appear in Statistical Reporting Date fields that have been customized to the search screen.

The screenshot shows the 'MLS Statistics - Firm' window. It has a 'Customize Search' section with a 'Date Range' dropdown set to 'Month'. The 'Begin' date is 'Jan 2014' and the 'End' date is 'Jan 2014'. Below this is a 'Primary Criteria' section with 'Input Date' and 'Closing Date' fields, each with a 'Begin' and 'End' date input. The 'Input Date' field has a dropdown set to '6 Months Back'. The 'Closing Date' field has a date range '07/21/2013 - 01/21/2014' displayed. On the right side, there is a 'CRITERIA SUMMARY' panel with checkboxes for 'Listing Owner', 'Date', and 'Input'.

Hover Tool Tip on filter for applied Date Range

When the filters are available, a hover over tool tip will display the equivalent date range on both the field display and within the list itself:

New! v

With the 5.20 release, arrow indicators and a hover over percentage have been added to the Price column in the Spreadsheet. By default, Red will indicate a decrease and Green will indicate an Increase.

On hover over of the arrows the increase/decrease percentage from the previous price will display

		RED	↑ \$1,900	267 GRANT AVE
		VE	↑ \$35,500	169 PARKER ST

Here is what the description would look like at the max number of characters. It does not take away from the photo; there is a pop up that appears over the photo when a user mouses over it but when they lower their mouse the box goes away. Transparency...

Automated Valuations

Action Item: Verify AVM setup

To integrate more data analytics into Paragon, Paragon Connect, and Collaboration Center, we are introducing Automated Valuations from Black Knight, RPR, and Zillow. Automated Valuations are estimated market values based on mathematical modeling of a property's value at a specific point in time based on comparable properties and other available data. The AVMs will be available in the following three areas:

1. The Property Detail Report in Paragon Connect and Collaboration Center
2. The Map Panel for Listings and Parcels in Paragon
3. The CMA Comparable Price Analysis Report in Paragon

The AVMs can be enabled/disabled at the MLS and Board levels by Black Knight. Once they are enabled, Agents will see a new User Preference for the Collab Center called Automated Valuations. This will give agents the ability to disable the AVMs so that they do not appear in the Collaboration Center.

NOTE: The new data and analytics that we are adding to Paragon including AVMs are provided as a courtesy to customers that license BK Public Record Data, either through Paragon Tax and CRS. If your MLS does not use Paragon Tax or CRS then please contact your Sales Representative to discuss options for enabling these new features in your Paragon system.

AVMs in Detail View of Collaboration Center and Paragon Connect

When enabled, a new "Valuations" tab will appear in the Detail View. Clicking on the tab will jump the user to the section of the report.

The screenshot displays the 'Valuations' tab for a property at 4531 E Burgundy Court, Nampa, ID 83686. The property is listed for \$299,900. The 'Valuations' tab is active, showing three automated valuation models (AVMs):

AVM Provider	Estimated Value	Value Range
EZ Value SM (Powered by Black Knight)	\$298,000	\$271,180 - \$324,820
RPR	\$295,240	\$280,478 - \$310,002
Zillow	\$307,789	\$283,166 - \$338,568

Paragon v5.72 Release Enhancements_P100 (August 2019)

AVM User Preference setting

Agents can enable/disable the AVMs for the Collab Center from this new User Preference. If the MLS or Board does not have the AVMs enabled, this user preference will not appear. If the MLS or Board only enable one or two of the AVMs, only those AMS will appear in the user preference.

CMA – Calculated Auto Adjustments for Numeric and Feature Fields

This enhancement allows each user to create and save adjustment values to current system fields (numeric and features only) that can be applied to CMA comparables and automatically calculated based on field values. Feature fields and Numeric fields can be added to the Calculated Adjustments table. When applied to comps in CMA with the Calc Adjust button, the adjustment value is added to each comp, and the total adjustment for that field on each comp is automatically calculated based upon the value in each comp listing compared to the Subject Property value.

- **Action Item:** Users can customize the selected fields and values in Preferences > CMA > Adjustments > Calculated Adjustments. **MLS should select which Numeric fields will be available by selecting the CMA Auto Adjustable Checkbox at the bottom of the field setup screen.**

Figure 1, Preferences > CMA > Calculated Adjustments > Numeric fields

The screenshot shows the 'CALCULATED ADJUSTMENTS' window with a 'Save' button and a 'View All Calc' button. Below the buttons is a welcome message and instructions. The 'Field Type' is set to 'Numeric'. There are search and filter options. Two tables are displayed: 'Available' and 'Selected'.
