

Danny Freeman

Stephens Real Estate

Personal Life

Danny is a dedicated real estate professional with a proven track record of leadership, board service, and industry engagement. He is recognized for exceptional community involvement and operational expertise in real estate. In addition to 15 years of Real Estate experience, Danny possesses over two decades of diverse experience in insurance claims management, catastrophe response, and construction, complementing extensive board and committee service inside and outside the REALTOR® community.

Real estate runs deeply in Danny's family. He spent 8 years being mentored by his mother-in-law, Mary Lou Roberts, a well-respected figure in the industry for 42 years. His wife, Michelle, decided to begin actively working as a REALTOR® in 2019, and their daughter, Lexie, is a mortgage broker with experience in the title industry. Lexie's husband, Noah, is currently working in the title industry. Sometimes, it seems like the family eats, sleeps, and breathes Real Estate.

As a lifelong Lawrencian, Danny enjoys helping people move to Lawrence and sharing all that Lawrence has to offer. He is proud to be a part of the REALTOR® community, honored to serve on the Board of Directors, and if elected as your 1st Vice-President, looks forward to serving you as a future President of the Lawrence Board.
