

Taylor LaRue

McGrew Real Estate

Personal Life

Lawrence has been and always will be home. As a lifelong resident of Lawrence, I find it so rewarding getting to know people in our community and help them reach their goals and dreams of owning real estate. After graduating from KU, I worked at the University of Kansas Small Business Development Center where I advised new and existing businesses on various aspects of starting and growing their business. Coming from a family of many entrepreneurs, this felt right at home. When I jumped into real estate, many of the same aspects applied.

In my free time, I enjoy spending time with family and friends, our two dogs, traveling, and cycling on the Peloton. Real estate is all about relationships – and I would be honored to continue growing my relationships as 1st Vice President of the Lawrence Board of REALTORS®.
