

Erin Maigaard – McGrew Real Estate

Personal Life:

I moved to Lawrence in 1989 and have considered it home ever since. I love that Lawrence is such a unique and special place. I started in the customer service industry when I was a young teenager and have been hooked ever since. The idea of creating wonderful memories for others grew for me from hospitality service to real estate. I jumped right into LBOR events and committees. I attended Ready Set Spring before New Member Orientation and have been hooked ever since! I think we can all agree that the LBOR has wonderful benefits for our members, affiliates, and community, and continues to help with amazing events in our awesome town. When I'm not working, I enjoy time spending time with my family. I love trying new recipes and I will always be ready for lunch!!
