This would be a lunch & learn where Paradise Flooring would provide the lunch as well as the presentation.			

Some ideas we can talk about are:

Hard Surface Floors and what can be repaired vs what needs to be replaced

How to correctly identify what type of flooring is in a home (wood vs LVP vs laminate) (ceramic vs LVT)

Proper cleaning of all different types of flooring

At Stephan's last fall I spoke about how we can help homeowners get their house ready to sell quickly and cost effectively- making the realtors' job easier.

We can add on design trends to any topic you think people might be interested in as well as a lengthy Q & A session.

If there is something that you think people would be more interested in, let me know!
